

# Sides

Allday

She just wanna go downtown when the sundown  
Got a couple pills and it's cool 'til the comedown  
And I brought the whole damn crew but it's alright  
Living everyday to the fullest, never switch sides  
Switch sides, switch sides  
Switch sides, switch sides  
Switch sides, switch sides  
Living everyday to the fullest, never switch sides

No hit records on my demo  
No talent this is effort  
Sculpting stone like Donatello of the clouds, visionary  
Ray of light ray of light  
Found myself out in the desert  
Arizona sky like neon nerds  
System filled with venom  
But if that's their disses for me I do not feel disrespected  
I just feel young, wealthy, kinda handsome, independent  
Did I mention independent?  
Casper's t-shirt independent  
Small labels with the method, whole team did this together  
Oh no Oh no, they had to be a hassle  
I got bigger fishes, killer whales  
I know they're really mammals  
People's morals getting lost, its too much for me to handle  
I don't take these hoes to dinner; I would rather eat a barrel  
These things used to hurt but I'm stronger now  
Reps reps reps 'til I'm bulging out  
I know the way they talk when I'm not around  
That's why I only come around when it's going down

She just wanna go downtown when the sundown  
Got a couple pills and it's cool 'til the comedown  
And I brought the whole damn crew but it's alright  
Living everyday to the fullest, never switch sides  
Switch sides, switch sides  
Switch sides, switch sides  
Switch sides, switch sides  
Living everyday to the fullest, never switch sides

I'm streaking, I'm streaking fully dressed  
No peaking, no peaking at my test  
I'm skidding, I'm skidding through these streets  
With my whole team, squished into the seats  
That's my old whip, kept it when I signed the deal  
That's my new girl, think this one might be real  
Guess I say that, I guess I say that everytime  
I would hate to have to settle, I need to get this right  
On bell street, going past the cemetery  
Don't bury me there, heaven help me  
Oh having panic attacks, this stress ain't healthy  
Blue like repping Chelsea, go tell them girls leave  
But I'm India ya like New Delhi  
The new delly I'll cross you up  
Crossed with Nelly, and you always find some summer don't matter what the mo nth  
Goulding like Ellie, but I'll make a bad boyfriend like Oscar Pistorious

And when all is done and said it's me and my warriors  
And she just

She just wanna go downtown when the sundown  
Got a couple pills and it's cool 'til the comedown  
And I brought the whole damn crew but it's alright  
Living everyday to the fullest, never switch sides  
Switch sides, switch sides (never fucking switch sides)  
Switch sides, switch sides (never fucking switch sides)  
Switch sides, switch sides (never switch sides)

Living everyday to the fullest, never switch sides  
Switch sides  
Never switch sides
