

underneath

Allday

Ooh she my paintbrush
Tonight is our canvas
I know that's your man but
Don't care what your man says
Ice princess baby
Remember how you'd say to me
Life pretty cold like
Like Reykjavik in January
I'll keep your secrets safe like a stash spot
Lot of people try to be me, but they cannot
Smoking cigarettes, I know they're bad for my complexion
What u gonna do, now you've got my attention?
Yea put on a show show show
I'm a sucker
For a rude attitude in Prada
Shades shades shades
Got me hung up
It's more than skin deep with you
I wanna see what's

Underneath
Underneath
When your clothes
Are in a heap
I wanna know
I wanna see
What's under
Under
Underneath yeah

We could hit the strip
Spend my pay the same day it hits
Before you came I was feeling blue like a crip
Didn't think I'd feel like this (like this)
Kinda surprised with this
Lil' miss
You wanna feel subway wind, in your hair, and get a lil pissed
Walk the high wire right over the fire until you slip (slip)
I wanna go out, among the living, taste your spit
Burn every bridge, look into an eclipse
In Prada shades shades shades
Cause I'm hung up
It's more than skin deep with u
I wanna see what's

Underneath
Underneath
When your clothes
Are in a heap
I wanna know
I wanna see
What's under
Under
Underneath yeah

And you a princess to me
Ice princess to me
