

Void

Allday

And I've got the feeling inside
It's rushing down into the heart
I hold nothing so high
As I do you

And you will choose a choice
You will avoid the void
No need to curse the sky
When you wash your clothes but they won't dry

You'll avoid the void
You will avoid the void
You will avoid the void
You will avoid the void

And I've got this picture in mind
Someday we'll hang it on the wall
I don't think I would be fine
Without you

And you will choose a choice
You will avoid the void
No need to curse the sky
When you wash your clothes but they won't dry

You'll avoid the void
You will avoid the void
You will avoid the void
You will avoid the void

Baby's got a good spirit
Baby's got a strong heart
Baby's got a big spirit
Baby's got a wild heart
Baby's got a free spirit
Baby's got a kind heart
Baby's got a...

And you'll avoid the void
You will avoid the void
You will avoid the void
You will avoid the void

And you'll avoid the void
You will avoid the void
You will avoid the void
You will avoid the void
