

# Wolves

Allday

Bottle full of rocket fuel  
Bitches on my ship  
I'm vibeing on these videos  
Thinking that I'm rich  
You know that time I saw a UFO  
Mum said I was fibbing  
But I saw what I saw  
Can't nobody tell me different  
Got my head up in the clouds where the planes be  
Climbing up the bean stalk  
Giants never phased me  
They cutting up a Maybach  
How can I be Jay-Z  
Frankly I'm a monster man  
Look what they're creating  
Spend it all man max it out  
Sugar tits I ain't Malibu  
But my wrist got a sparkle  
And my neck have it too  
And my TVs to the ceiling  
Every single channels news bout myself  
And the story is the money I've accrued  
Got a bottle full of Moët  
And the Zooey Deschanel  
Got my overcoat channel  
Colours all malapell  
Take a boat in the water  
Let my worries float away  
On the waves is that what I'm supposed to say  
And I wonder

And I can't say I'm faded, and I can't spend a million in cash  
To make it rain paper and watch it cascade down and crash  
World full of wolves  
World full of wolves

My boy is always on the fly  
Card is coloured black  
Feeling paranoid as ozzy  
That he's never coming back  
Till were always in the club  
Tell the DJ up the track  
In the corner spilling drinks  
In an Alexander bag  
Saying he don't really love me I'm fat  
Yada yada chew em up spit em out  
In the street hubba bubba  
Kick a stink make me almost dry reach  
Up above her like the hill  
We could climb if we tried  
Chugga chugga  
And Pamela Seaga I don't need a crystal ball  
Tried to leave the Truman show  
Ima see you hit the wall  
I don't have many possessions  
But she told me this is yours  
Yeah I treat it like a pet

You can never keep a wolf in a cage  
Chasing money or just chasing my tail  
Chasing tail it will make me tired sail  
Maybe I should think of business more  
But the water isn't pure  
And I'm feeling insecure now

And I can't say I'm faded, and I can't spend a million in cash  
To make it rain paper and watch it cascade down and crash  
World full of wolves  
World full of wolves

If this is conscience  
Then call me concious  
I know the label wanna hear it  
And they'll call me bonkers  
I know the corporations kill people  
For they profits  
And they'll probably kill me too  
Right before I stop it  
I know they want rappers talking about  
All the dollars  
And how the girls stripping off  
All before the chorus  
But work it if you want I hope  
You always keep your power like a ranger  
In a park where were drinking  
Singing louder yeah I know  
In my history I've been contradictory  
I just want brain from a dame like a big zombie  
She just want a cross, on her neck not a bit holy  
Fake titties feel alien  
When they Sigourney  
Marble floors in the lobby man  
Yeah we pave paradise just because we can  
The credit cards your spending  
I feel like Charles and eddy  
I can lie but I'm just not ready  
Nah nah nah

And I can't say I'm faded, and I can't spend a million in cash  
To make it rain paper and watch it cascade down and crash  
World full of wolves  
World full of wolves
