

# Different for Us

Alle Farben

If it don't hurt now when I see you  
How do I know if I was really in love?  
And if I don't break down like you want me to  
Maybe every touch was different for us

It don't feel the same anymore  
We were so connected before  
There were no conditions  
But it don't feel the same anymore  
Damn this feeling's hard to ignore  
And you know it

If it don't hurt now when I see you  
How do I know if I was really in love?  
And if I don't break down like you want me to  
Maybe every touch was different for us

Maybe every touch was different for us  
Maybe every touch was different for us

I saw the flowers on my car  
Knew that you had to drive so far  
All on your own, all on your own, all on your own  
Baby you know the hardest part  
Is you keep handing me a heart  
I don't wanna hold, don't wanna hold, don't wanna hold

It don't feel the same anymore  
We were so connected before  
There were no conditions  
But it don't feel the same anymore  
Damn this feeling's hard to ignore  
And you know it

If it don't hurt now when I see you  
How do I know if I was really in love?  
And if I don't break down like you want me to  
Maybe every touch was different for us

Maybe every touch was different for us  
Maybe every touch was different for us

It don't feel the same anymore  
We were on different sides of the room  
Looking at each other  
It don't feel the same anymore, no  
Everything is different for us

If it don't hurt now when I see you  
How do I know if I was really in love?  
And if I don't break down like you want me to  
Maybe every touch was different for us, yeah

Maybe every touch was different for us  
Maybe every touch was different for us
