

Double in Love

Alle Farben

She was my woman just a day ago
She loved me good, she loved me through and through
But I was loving her in stereo
And that is something you should never, ever, ever do

She was my woman just a day ago too
We went out clubbing late last night
When the other one just happened to show up
How something so beautiful could give me such a threat

You're seeing double from the whiskey and wine
You'll sleep it off and buddy you will be fine
But let me tell you when you're not in the club
You know you're in trouble if you're seeing double in love

(You know you're, in trouble
You know you're) Double in love, double in love (in trouble)
(You know you're, in trouble
You know you're, in trouble)

I tried to play it like she was a friend
But she played me with a slap in the face
And said she never wanna see me again
And turned around and walked herself right out of the place

I was waiting for a sign from God
A little mercy and a chance to atone
Next thing I knew I had a scotch in my crotch
And was standing, feeling foolish and all on my own

You're seeing double from the whiskey and wine
You'll sleep it off and buddy you will be fine
But let me tell you when you're not in the club
You know you're in trouble if you're seeing double in love

(You know you're, in trouble
You know you're) Double in love, double in love (in trouble)
(You know you're, in trouble
You know you're...)

You know you're in trouble if you're seeing double in love
You know you're in trouble if you're seeing double in love
Love
