

# Little Hollywood

Alle Farben

We're living in our own little Hollywood  
We're washed up stars  
Everything's gon' be good  
We got everything we need in our neighborhood  
No fancy cars

Remember when we were fifteen  
Smoking in the park  
Never really noticed you  
But I was falling hard  
Remember Jimmy's pick-up  
From driving in the dark  
If I think about it now  
We didn't think at all  
Oh

We're living in our own little Hollywood  
We're washed up stars  
Everything's gon' be good  
We got everything we need in our neighborhood  
No fancy cars  
Everything's gon' be good  
I don't wanna know if it's gonna go, it's crazy living this life  
Oh oh  
Living in our own little Hollywood  
We're washed up stars  
Everything's gon' be good

Remember getting busted  
Graffiti on the wall  
You left me rebelliously  
With the hands tied up and all  
I wonder what you've been up to  
Jimmy's still the same  
The old tree in our backyard's still scarred by our names

I'm hanging on to everyone I know that we did at the time  
I don't wanna know if it's gonna go, it's crazy living this life  
Oh oh

We're living in our own little Hollywood  
We're washed up stars  
Everything's gon' be good  
We got everything we need in our neighborhood  
No fancy cars  
Everything's gon' be good  
I don't wanna know if it's gonna go, it's crazy living this life  
Oh oh  
Living in our own little Hollywood  
We're washed up stars  
Everything's gon' be good

We're washed up stars  
Everything's gon' be good  
We're washed up stars  
Everything's gon' be good

We're living in our own little Hollywood  
We're washed up stars  
Everything's gon' be good  
We got everything we need in our neighborhood  
No fancy cars  
Everything's gon' be good  
I don't wanna know if it's gonna go, it's crazy living this life  
Oh oh

Living in our own little Hollywood
