

# Lonely Land

Alle Farben

We're roamin' around on this wasteland  
Dust in the sky, dust on our minds  
Broken fools on a road to nowhere  
Feels like there there's no way back home

Welcome to lonely land  
Only one more night to stay  
You can leave now or take my hand  
Until we find home again  
Welcome to lonely land  
Only one more night to stay  
You can leave now or take my hand  
Until we find home again

Passed the time we walked for hours  
We're young, we're old,  
we're lost, we're found,  
I understand how lonely feels now,  
But I don't want to be alone

Welcome to lonely land  
Only one more night to stay  
You can leave now or take my hand  
until we find home again  
Welcome to lonely land  
Only one more night to stay  
You can leave now or take my hand  
until we find home again
