

# Madison

Alle Farben

When I'm with you,  
My problems all dissolve like Aspirin,

In bubbly water,  
You take away my pain and all my sins  
My Madison/medicine

Drink a little water with me right now,  
It will be all right now,  
You can be my right, now  
Dancing on the river with you right here  
Finally arrives here with you

If I can't take you, I don't wanna go  
You're the only Madison I know  
If I can't take you, I don't wanna stay  
Only you can take the pain away

A perfect day  
And I'm just glad I spend it all with you  
Let's pop the bottle  
I wonder what just one drink will do  
My Madison

Drink a little water with me right now,

It will be all right now,  
You can be my right, now  
Dancing on the river with you right here  
Finally arrives here with you

If I can't take you, I don't wanna go  
You're the only Madison I know  
If I can't take you, I don't wanna stay  
Only you can take the pain away

If I can't take you, I don't wanna go  
You're the only Madison I know  
If I can't take you, I don't wanna stay  
Only you can take the pain away

If I can't take you, I don't wanna go  
You're the only Madison I know  
If I can't take you, I don't wanna stay  
Only you can take the pain away
