

Summer Storm

Alle Farben

I am a lover
I don't let you go
Call me a liar
Don't wanna be alone

On the horizon
I see a girl that knows
Just how to wake me
Wake me from my sorrow

I'll keep waiting for
Another summer storm
Are you gonna be
The one that I adore
I been waiting for another summer storm
Another sum- another sum-
Another summer storm

Show me my weakness
Oh how the skies can change
Break me to pieces, she loves like a hurricane

On the horizon
I see a rain of hope
She gonna take me
Take me from my sorrow

I'll keep waiting for
Another summer storm
Are you gonna be
The one that I adore
I been waiting for another summer storm
Another sum- another sum-
Another summer storm

I'll keep waiting for
Another summer storm
Are you gonna be
The one that I adore
I been waiting for another summer storm
Another sum- another sum-
Another summer storm
