

Chaos Theory

Allegaeon

Instability, course of action
Roll of the dice, haunted by a fraction
Gone! A chaotic change
And the Sun delivers the strain
Probability, gaining traction
Dawn of the die, iota action
Gone! A neurotic range
And the gun delivers the stray

The slightest change of origin
Betrayal of the eyes
Abysmal dissolution
Chaos restored in life

Abnormality, deterministic
Initial condition, simulated shifted one
Uncontrolled a familiar trade
And the Sun will eat us then return to the grave
Volatility, aperiodic
Dawn of the die, 6 up chaotic
Gone! A phantom change
And the force that made us created a plague

The slightest change of origin
Betrayal of the eyes
Abysmal dissolution
Chaos restored in life

The slightest change of motion
Betrayal of the tides
Abysmal shift conclusion
Chaos restored in life

Can we foresee
The laws of chaos?
To predict this running paradox
To the gods we're against the clock
Can we be one?

Strange attractors
Fractals forming for disaster

The air we breathe today is
Harrowing and borrowed
Change is certain
Death is certain

The slightest change of origin
Betrayal of the eyes
Abysmal disillusion
Chaos restored in life

The slightest change of motion
Betrayal of the tides
Abysmal shift conclusion
Chaos restored in life

The slightest change
Of the eyes
Change is certain
Death is certain
Change in motion
Of the tides
Death is certain
Death is certain
