

Dark Matter Dynamics

Allegaeon

Subatomic
Primordial black holes
Lensing effect
Red shift observable
Gravimetric
Axion particles
Photometric
Vanta black tentacles

Baryonic
Discordant cosmic shores
Atoms neglect
The revenant ignores
Non-luminous
Thermal velocity
Spiral galaxies
Endless dark energy

Unseen, blood of the cosmos run
Between light and magnetics none
Implications, gravimetric ties
Independent, dark structures lie

The wraith of light

Phantom wraith of light
The warping of spacetime
A ghost of gravity
The universe alive

A spectre made of night
Devouring all light
Where questions roam
With answers clandestine
