

Dyson Sphere

Allegaeon

Our escalating needs pose machinery to encompass a star
long-term survival energy obtaining megastructure
dyson sphere
the energy rise to contribute to life and bring forth the power
in excess
entropy devised mechanics derive intercepted and transferred to
the realm of us
solar interception a design to increase reception
captured inside transmitted and refined

entropy devised mechanics derive intercepted and transferred to
the realm of us
acquisition to be in position, of advancement
solar mission to be in position of development
the vision now a seed planned mechanics to set us apart
we will survive projected flight targeted light
