

Just A Dream

Allen-Lande

These illusions have taken over all my nights
Don't dare to close my eyes anymore
Another night awake and waiting for the dawn to come
Another bed that I won't fall, fall into my dream

Wake me up, make me see
Remove this maid-up chains from me
Give me faith
Tell me this is only just a dream

Will you save me if I ever lose my mind?
Will you be there when the shadows are taking over?
And will you want me when the night is closing in on me?
Is there a way to stay awake and never close my eyes?

Wake me up, make me see
Remove this maid-up chains from me
Give me faith
Tell me this is only just a dream

Can't separate the day from night
Don't see the difference between the dark and light
Are my dreams real or just a lie?
Tell me am I alive?
