

# Reaching for the Stars

Allen-Lande

Deep within my heart I got this very strong belief  
That I can do anything I want  
In this world I take my chances, somehow I just know

Where leads the right time to let go  
I know the wrong will be low  
But I will keep moving on

'Cause it's my destiny  
To keep reaching for the stars  
It's my destiny  
You're one in a round I caught this far  
It's my destiny  
I'm going straight up to the top  
It's my destiny  
I'm on a round and I just can't stop

Look into my eyes and you'll see what it really takes  
To stay in the game and never fall  
Knowing when to trust your instinct no matter what they say  
Knowing when it's time to break the mold  
I'll do what I have to do  
To make all my dreams come true

'Cause it's my destiny  
To keep reaching for the stars  
It's my destiny  
You're one in a round I caught this far  
It's my destiny  
I'm going straight up to the top  
It's my destiny  
I'm on a round and I just can't stop

Look where I am  
See who you are  
No matter how far  
I'm reaching for the stars

'Cause it's my destiny  
To keep reaching for the stars  
It's my destiny  
You're one in a round I caught this far  
It's my destiny  
I'm gonna do what I have to do  
It's my destiny  
To make all my dreams come true  
'Cause it's my destiny  
To keep reaching for the stars  
It's my destiny  
You're one in a round I caught this far  
It's my destiny  
I'm going straight up to the top  
It's my destiny  
I'm on a round and I just can't stop
