

Closer

Allen Stone

Hard to find the words to say
Just how you make me want you
Don't have the vocabulary
I'm trying, babe
I'll find it, babe
I'll steal the sun for you today
Just so at night I'd see you
Anything to make you stay
I'll try it, babe
I'll find it, babe

Let's remove the latitude
That stands between my body and you
Pulling me like gravity so naturally
I just need you to

Closer
I need you, baby
I need you, babe
Closer
I need you, babe
I need you, baby
Need you, baby
Closer
Closer
Closer
Closer
I just need you

Tap into your energy
It flows just like a river
But don't you float too far away
Stay around, baby
Come to me, yeah

Let's remove the latitude
That stands between my body and you
Pulling me like gravity
So naturally
I just need you

Closer
I need you, baby
I need you, baby
Closer
I need you, baby
I need you, baby
Closer
Closer
Closer
Closer
I just need you
Closer
