

Strong

Allen Stone

When we fell in love
We knew it
Still here because
We been through it
Every storm
We stay rooted
That's just how strong our love is

Good thing that we promised
We would always keep it honest
When things get strained
We would stay and solve it
That's when our love feels the strongest

When we fell in love
We knew it
Still here because
We been through it
Through every storm
We stay rooted
That's just how strong how our love is
That's just how strong how our love is

Lord knows we've had problems
And we've had many options
But through good and bad
Happy and sad
We stayed around to solve 'em
That's why our love's the strongest

When we fell in love
We knew it
Still here because
We been through it
Through every storm
We stay rooted

That's just how strong our love is
That's just how strong it is
How strong our love is
Baby that's how our strong our love is
That's our strong our love is

When we fell in love
We knew it
Still here because
We been through it
Through every storm
We stay rooted

That's just how strong our love is
That's just how strong it is
