

Taste of You

Allen Stone

How do you look that good?
You don't have to ask you know that I would
For just a taste of you
I've spent my life collecting
But I'd sell it all with no hesitating
For just a taste of you

I'm not thinking about tomorrow
Cause I feel so good right where I am
And if your love should follow
I'll give you everything I can
Some things are hard to swallow
Life can leave a bitter taste
But it's nothing that your sweetness
Can't replace

Don't make me beg that way
There's not a single game I won't play
For just a taste of you
And if you need some loving
Just call me and I will come running
For just a taste of you

I'm not thinking about tomorrow
Cause I feel so good right where I am
And if your love should follow
I'll give you everything I can
Some things are hard to swallow
Life can leave a bitter taste
But it's nothing that your sweetness
Can't replace

I know you feel it, like feel it
I know you feel it, like feel it
And that's why this smile just won't leave my face
I know you feel it, like feel it
I know you feel it, like feel it
And that's why

I'm not thinking about tomorrow
Cause I feel so good right where I am
And if your love should follow
I'll give you everything I can
Some things are hard to swallow
Life can leave a bitter taste
But it's nothing that your sweetness
It's nothing that your sweetness can't replace
It's nothing that your sweetness
It's nothing that your sweetness can't replace
It's nothing that your sweetness
Can't replace
