

Warriors

Allen Stone

On and on
That's how we go
On and on
That's all we know

We've been waiting for this moment
Even though we're close to broken
Running on empty
Running on empty
Running on, running on, running on

Walk tall like warriors
Head high, head high, head high
Walk tall like warriors
Head high, head high

Only up, we don't stay low
Only up, that's all we know

We don't run from our opponents
Even when we're close to broken
Running on empty
Running on empty
Running on, running on, running on

Walk tall like warriors
Head high, head high, head high
Walk tall like warriors
Head high, head high, head high

We've been waiting for this moment
We don't run from our opponents
There is nothing to defeat us
Dedication, it will lead us
Head high, head high, head high
Head high, head high, head high

Walk tall like warriors
Head high, head high, head high
Walk tall like warriors
Head high, head high, head high

Walk tall like warriors
Head high, head high, head high
Walk tall like warriors
Head high, head high, head high
