The shattered moon
Enduring countless nights of trials
We must run together
From the moment we were born
Following a white light in the darkness
We discovered our own future, yeah, yeah

Trials come coldly
Blooming within the pain
Together we overcome, now
Ready to run, throwing ourselves on the pedals

Run through the world, racer

Embrace the sun, speed up
The boundaries, burn it down, burn it down, ayy
Like crazy
Run through the world, racer
Embrace the sun, speed up
I have no thoughts of stopping, yeah
Like an explosive flash

Ooh, ooh-ooh, ooh-ooh, ah
Ooh, ooh-ooh, ah
Ooh, ooh-ooh, ooh-ooh, ah
Ooh, ooh-ooh
Run through the world, racer
Embrace the sun, speed up
The cheers, oh, resonate and spread, yeah
In this shining moment

Riding above the flickering lights
Unrestrained flames, catch the fire, yeah, go wild
Sometimes I'm still reeling on the steep path
I will step into my awakened inner world, to the world

Trials come coldly
Blooming within the pain
Together we overcome, now
Ready to run, throwing ourselves on the pedals

Run through the world, racer
Embrace the sun, speed up
The boundaries, burn it down, burn it down, ayy
Like crazy
Run through the world, racer
Embrace the sun, speed up
I have no thoughts of stopping, yeah

Ooh, ooh-ooh
Run through the world, racer
Embrace the sun, speed up
The cheers, oh, resonate and spread, yeah
In this shining moment

Fill up the cloud of dreams
Fly higher
Melodify even the pain
Together we sing along
Even if there's a huge obstacle
We move forward without hesitation
We're going faster

Run through the world, racer (Racer)
Embrace the sun, speed up (Burn it all)
The boundaries, burn it down, burn it down, ayy (Burn it down, burn it down)
Like crazy
Run through the world, racer
