

Anchor

Allie X

Like an anchor
My pretty baby holds me down
Safe and secure
And when its arms are wrapped around
Nothing on earth
Can come between this kind of love
Like an anchor
It pulls me, pulls me, pulls me under

The weather's come to take me away
But I won't leave with them
Faces come and never stay
If it kills you, if it kills me
I promise to remain
Darling, with you

Like an anchor (Like an anchor)
My pretty baby holds me down
Safe and secure (Safe and secure)
And when its arms are wrapped around
Nothing on earth (Nothing on earth)
Can come between this kind of love
Like an anchor
It pulls me, pulls me, pulls me under

I live underneath your weight
And it keeps me grounded
Empty cable, wash away
If it kills me, if it kills me
I promise to remain
Darling, with you
