

Feel The Force (Concept)

Allie X

Endless remorse
Now we feel the force (2x)

Wed the concrete
The remainder was overcast
Following me til' my death
Maybe you'll leave me when I'm gone

You were born of a memory
Reminder of an eternal dream
A steady fall into the void
With no hope of rescue
Can you save me tonight?
(Can you save me tonight?)

Endless remorse
No chance of survival
This love took it's course
No chance of revival

Now we feel the force
(Feel the force, feel the force) (2x)

Hopeless chaos
Without a true hero
This lust took it's course
No chance of revival

Now we feel the force
(Feel the force, feel the force) (2x)

Blurred darkness and dead ends
Blurred vision with [?]
I'll be runnin' while you linger
I fell but you flew
I fell and you knew
