Hello

I'd heard goodbye, goodbye, over and over, I felt hollow I lost my mind, my mind, life was a bitter pill to swallow And though I wanted affection, I was tired of rejection, I kept the habit I tried holding the rails, I fell down and bit my nails till they were jagged

It's like you knew And you came out Out of nowhere and into my life It took you a while But you feel me And I'm sure that I'm gonna survive

And it started with a hello I could be your superhero I could love you for the rest of my life Don't you ever let me go-o-o And it started with a hello Take the lead and I will follow I will love for the rest of my life Don't you ever let me go-o-o

I was behind, behind, now I was shy at fasting forwards All of this time, this time, you have been right around the corner Next time the doctor tells me I have to swallow a pill to put it in perspective I'll tell her everything's coming up, was shockingly better than I expected

Cause I was a fool For believing There was no one Who could change my life Cause now you've arrived You revived me Now I'm sure that I'm gonna be fine

And it started with a hello I could be your superhero I could love you for the rest of my life Don't you ever let me go-o-o And it started with a hello Take the lead and I will follow I will love for the rest of my life Don't you ever let me go-o-o (Don't you ever let me go-o-o)
It was the first day of the rest of my
life x3
It was the first day of my life
