

# Learning in Public

Allie X

Think I heard something break  
I'm sorry  
There's something happening  
In me  
It's like I'm looking down  
At my body  
A pinball in a game  
Losing speed

If I'm aimless  
Am I blameless  
When I hurt someone?

Why  
Why does it have to be  
My least favorite subject  
Learning in public  
When I  
Can't even look at me  
While everyone's watching  
I'm learning in public

Do do do do do do dododo  
Do do do do do do dododo  
All in all in all, it's just a memory

I didn't mean to make  
You unhappy  
I didn't mean to change  
Without letting you know  
I thought that I could take  
Take you with me  
But did you slip away  
Or did I let go?

It's confusing  
What I'm losing  
It was never mine

Why  
Why does it have to be  
My least favorite subject  
Learning in public  
When I  
Can't even look at me  
While everyone's watching  
I'm learning in public

Do do do do do do dododo  
Do do do do do do dododo  
All in all in all, it's just a memory  
Do do do do do do dododo  
Do do do do do do dododo  
The time, the time, the time, the time and energy

Everything I thought I wanted  
I changed my mind and I forgot it

The time, the time, the time, the time and energy  
We're too young till we're too old for it  
This is somewhere till it's nowhere at  
All in all in all, it's just a memory

Why  
Why does it have to be  
My least favorite subject  
Learning in public  
When I  
Can't even look at me  
While everyone's watching  
I'm learning in public

Learning in public

Everything I thought I wanted  
I changed my mind then I forgot it all
