

## One Second

Allie X

Pills just wasn't strong enough to put my head to sleep  
And make me okay  
Make it okay  
Stand up in the morning and the coffee is too weak  
Then I hear you say  
"Are you okay?"

Twelve step, holy ghost  
Hail Mary  
When I am blurry head, pharmacy  
Nod again, there I am  
I'm real sorry  
Ahh, ahh

One second  
While I put me back together  
One second  
For you I will try to be better  
One second  
Can't I find more confident loss fixes forever  
Baby, you deserve better

I just wasn't strong enough to pump that all below  
And make it okay  
Make me okay  
I'm looking for the song around to make this feel like home  
Maybe make you stay  
I'll make you stay

Twelve step, holy ghost  
Hail Mary  
When I am blurry head, pharmacy  
Nod again, there I am  
I'm real sorry

One second  
While I put me back together  
One second  
For you I will try to be better  
One second  
Can't I find more confident loss fixes forever  
Baby, you deserve better
