

Desire (Lo Que Vale La Pena)

Allison Iraheta

Telling us where to go
Like it's something that we don't know
Don't want them thinking
We've got a mind of our own

Blinding us to protect
And pushing us to accept
Their same old fears
They've held for years and still expect

Everybody get in line again
We know that we're what they're up against
Everybody get in line again
We know who we are in the end

Lo que vale la pena es desire
Lo que vale la pena es desire
Get over it
Get over it
Lo que vale la pena es desire

How do we win a war
That started before we were born
Tell me how would they know
What's worth dying for

Look at all they got
They preach everything they're not
They'll never hear the screams
We keep inside our hearts

Everybody get in line again
You know that we're what they're up against
Everybody get in line again
We know who we are in the end

Lo que vale la pena es desire
Lo que vale la pena es desire
Get over it
Get over it
Lo que vale la pena es desire

Viva el amor
Viva la paz
Viva el dolor

Viva el amor
Que viva la paz
Viva el dolor

Lo que vale la pena es desire
Lo que vale la pena es desire
Get over it
Get over it
Lo que vale la pena es desire
Get over it
Get over it

Lo que vale la pena es desire
Lo que vale la pena es desire
Lo que vale la pena es desire
