

Locked down and alienated
Confused and complicated
Now it seems you still have my heart
Shot down and unaccepted
Sometimes I get the feeling
Everything was finished from the start

But I'm scared of what I'll find
The search for answers just keeps going nowhere
All I know is that it's killing me inside
As I raise this final bottle to the sky

Here's to promises that die
Here's to all the nights we've said our last goodbyes
As we burned another day off all our lives
Here's to memories that will fade
Like the photographs that scream of better days
It's all weighing on my mind

Knocked down and devastated
Refused and understated
Now I see how you stole my heart
Now I'm forced to breathe without you
Sometimes I get the feeling
Everything is tearing us apart

But I'm scared of what I'll find
The search for answers just keeps going nowhere
All I know is that it's killing me inside
As I raise this final bottle to the sky

Here's to promises that die
Here's to all the nights we've said our last goodbyes
As we burned another day off all our lives
Here's to memories that will fade
Like the photographs that scream of better days
It's all weighing on my mind

But I'm scared of what I'll find
The search for answers just keeps going nowhere
All I know is that it's killing me inside
As I raise this final bottle to the sky

Here's to promises that die
Here's to all the nights we've said our last goodbyes
As we burned another day off all our lives
Here's to memories that will fade
Like the photographs that scream of better days
It's all weighing on my mind
Weighing on my mind
Weighing on my mind
