

## Crazy Love

Allman Brown

The night so hot on our skin  
I can feel the thunder rolling in  
No past or future here  
Just the present tense we're living in  
Your eyes shook my soul  
With a look from centuries ago

Some kind of crazy love  
Keeps me going  
Some kind of crazy love  
It's all in the knowing of you

Cold beers by candlelight  
Losing control but that's alright  
Loose limbs and heavy eyes  
With you I drop the disguise  
How can I thank you for  
This gift and so much more

Some kind of crazy love  
Keeps me going  
Some kind of crazy love  
It's all in the knowing of you

Give me that crazy love  
I need it for my heart  
Give me that crazy love  
Give me that crazy love  
Give me that crazy love

The taste of salt on our lips  
My pulse beneath your fingertips  
Lacunas on the moon  
We drift and dance in your bedroom  
You made time stand still  
Somewhere out there it always will

Some kind of crazy love  
Keeps me going  
Some kind of crazy love  
It's all in the knowing of you
