

Far Away

Allman Brown

When I'm far away from you
The world gets a little bit bigger
Checking into hotel rooms with bibles in their drawers
Noisy refrigerators
Logging into the wi-fi, unpacking my bag
Waiting until it's late enough to call you
And I'm thinking

You're all I love in this world
My darling
Please, keep me close to your heart
When I am so far away from home
So far away from home

Driving for miles and miles
The road unfurling like a ribbon
Drinking black coffee in quiet diners
Talking to a stranger for a spell
Wide open skies, changing faces
Losing my mind a little bit
And I'm thinking

You're all I love in this world
My darling
Please, keep me close to your heart
When I am so far away from home
So far away from home

No, I don't sleep well, sleep well
Stuck like a ghost in a haunted house
Oh, I don't sleep well, sleep well
Without you by my side
Without you by my side

Soon we'll be back together
Safe in your arms once again
It might feel strange for a minute or three
Then I'll make you laugh and we'll be fine
And I'm thinking

You're all I love in this world
My darling
Please, keep me close to your heart
When I am so far away from home
So far away from home
