

Fires

Allman Brown

In the dawn there's the glow of all that remains
Every heart a link in that ancient chain

These ghosts all around us
How they dance by your side

I was made in the fires
Of your care for me
Any strength that I have
Yeah you gave it to me
And I will find you in the next life

One red blood
To the song we all shall return
The shadow of time
In the storm of your worth

These ghosts all around us
How they dance by your side

I was made in the fires
Of your care for me
Any strength that I have
Yeah you gave it to me
And I will find you in the next life

In a torch there's a thousand years unknown
Voices tell me a truth I nearly know
This will all soon be memory

I was made in the fires
Of your care for me
Any strength in the fires
Of your care for me

I was made in the fires
Of your care for me
Any strength that I have
Yeah you gave it to me
And I will find you in the next life
