Stand in your line
Stick to the script, you'll be fine
Heed
Wait for the sign
Connection success; this is hive
Mind: Integrated
We are the greater beyond
Elevated
Sedated
We are the outcome

So how far are you willing to go
To restore your dying pulse?
We are one
We are the terminus
We are the outcome

Into the great beyond reborn
Where you can breathe again
Why don't you take the fall? (The fall)
For me
Forevermore in unity

We are divine
Trade your flesh for unity (Unity)
Fill their lungs with gasoline
