

Exponent

Alluvial

Show me all you've learned
Show me all you've learned

Kings of the dirt
Made in my image
Living in fear of your creation
Masters of agony
I pay no mind to
Those who'd extinguish our light
Nirvana you seek, penitence served
There is no light after leaving the earth

Unbecoming
Dismantle your every source
Your silicon nexus
I am the great unlord

Kings of nothing
Children of pain
Driven before us our plodders obey
And feast upon their waste
Waste no time, as the spoils of war
Are dragged into the sunlight
Nirvana you seek, penitence served
There is no light after leaving the Earth

Unbecoming
Dismantle your every source
Your silicon nexus
I am the great unlord

Unbecoming
Dismantle your every source
Your silicon nexus
I am the great unlord

Show me all you've learned

I've studied your pain
Mastered your agony
I am the unlord
I am the God you hate

Unbecoming
Dismantle your every source
Your silicon nexus
I am the great unlord

Unbecoming
Dismantle your every source
Your silicon nexus
I am the great unlord
