

Feeling Dynamite

Ally Brooke

Things are finally going my way
It's getting brighter
No trouble in sight
It finally starts to go my way
Knowing sensations
I feel so alive

We dance in beaming lights
See the people pushing by
Walk me through the night, yeah
Speakers way too high
Feel like I can finally touch the sky, ooh

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down

In this moment I want to stay
And be here forever
I'm not coming down
If forever could be like this (Like this)
Nothing can stop me
I'm lost in my mind

We dance in beaming lights
See the people pushing by
Walk me through the night, yeah
Speakers way too high
Feel like I can finally touch the sky, ooh

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down

Taking us deeper down
Taking us deeper down
Now our bodies rush together and unite

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down

Feeling dynamite
Happiness and delight

We've found it and ignite
Taking us deeper down

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down

Taking us deeper down
Taking us deeper down
Now our bodies rush together through the night

Feeling dynamite
Happiness and delight
We've found it and ignite
Taking us deeper down
