

You don't even care that my clothes aren't there  
You needed the hanger space  
You don't even mind 'cause you don't waste time  
Fillin' in all the blanks

I wish you were sad for a day  
So you would know how it tastes to be lonely  
I wish you would stay in for a night  
To see what it's like fadin' slowly

You were my love, you wanted this  
I gave it all up and you took what you did  
You were my life, you turned off like a switch  
You know what they say?  
Well, they say life's a bitch

You don't even care, you can get yourself a spare  
Like you always do  
But wouldn't it be nice if my kind of paradise  
Wasn't lyin' there, buried in you?

I wish you were sad for a day  
So you would know how it tastes to want more  
I wish I could find the dignity  
So that I didn't have to be just  
Another call that you ignore

You were my love, you wanted this  
I gave it all then you took what you did  
You were my life, you turned off like a switch  
You know what they say?  
Well, they say life's a bitch

You're such a bitch, baby  
Fillin' in all the blanks  
I bet you love how it tastes, baby

You needed the space  
You needed space  
You needed the space  
You needed space  
You needed the space  
You needed space
