

Final Fantasy

ALMA

Layin' here, this fucked up room
And all I see is a piece of you, yeah
Baby I got it, baby I gotta go now
Baby I got it, baby I gotta go now
I can't forget it, won't regret it
Things we said, we made our bed, yeah
Baby I got it, baby I gotta go now
Baby I got it, baby I gotta go now

Final fantasy
Before we fall asleep
Touch me honestly
Passionately
Blame it all on me
It's the last time, time
Final fantasy
Before we never speak
Touch me honestly
Passionately
Blame it all on me
It's the last time, time

We say we'll talk, we say we'll be fine
But we both know, it's lies on lies, yeah
Baby I got it, baby I gotta go now
Baby I got it, baby I gotta go now

Got a pretty face, and you know it's great
You'll have it so easy
Got a pretty heart, got a pretty mind
Don't waste it on me, babe
Got a pretty face, and you know it's great
You'll have it so easy
You'll have it so easy
Don't waste it on me, babe

Final fantasy
Before we fall asleep
Touch me honestly
Passionately
Blame it all on me
It's the last time, time
Final fantasy
Before we never speak
Touch me honestly
Passionately
Blame it all on me
It's the last time, time

I gotta make a better life
For me and my family
I gotta make a better life
And be who I wanna be
So don't waste it on me, baby
Don't waste it on me, baby, no
Yeah

Final fantasy
Before we fall asleep
Touch me honestly
Passionately
Blame it all on me, yeah
It's the last time, time
Yeah

Final fantasy
Before we fall asleep
Touch me honestly
Passionately
Blame it all on me (blame it all on me)
It's the last time, time
Final fantasy
Before we never speak
Touch me honestly
Passionately
Blame it all on me
It's the last time, time
