

Have U Seen Her?

ALMA

Have you seen her?

Ayy

I'm running, running, running like a psycho
It's funny, funny, funny but it's not cool
I feel wavy but I think I'm on my way
I'm on it, on it, on it never stumble (Never, never, never)
One, two, three, I never fade away (I never fade away, no)
A, B, C, I never go insane (I never go insane)

They told me about breakdown
They say that I should lay down
But all I need to be myself is you
(All I need to be myself)
They gave me medication
And said it's my last warning
But all I need to be myself is you

And get fucked up so bad
Can I, can I have that
Baby all I wanna do-oooh (Do-oooh!)
If you too out of hand
And don't give a damn
Tell me do you want it too? (Woo-hoo!)

(Do you want it, do you want it, do you want it, do you want it)
All I wanna do-oooh
(Do you want it, do you want it, do you want it)
Woo-hoo! Woo-hoo!
(Do you want it, do you want it, do you want it)
All I wanna do-oooh

Drop it, drop it, drop it like it's so hot
Give me, give me, everything you got-ah
(Everything you got)
Let's take shots, I wanna go away (I wanna go away)
But fuck it, fuck it, let's get young like Botox
(I feel young like a)

One, two, three, here I come again (I never fade away, I never fade away)
O.M.G shock your world my friend (Shock your world my friend)

Let's get fucked up so bad
Can I, can I have that
Baby all I wanna do-oooh
If you too out of hand and don't give a damn
Tell me do you want it too

All I wanna do-oooh
Woo-hoo! Woo-hoo!
All I wanna do-oooh
Woo-hoo! Woo-hoo!

Drop

Mrs Cyber has left the building
I repeat, Mrs Cyber has left the building again
