

Run Run Run

ALMA

We're stuck in a town
What goes around comes around
Got some money for gasoline for you and me
What you say?
Come with me and let's go
(Come with me and let's go)
You're beautiful like Monroe
(Beautiful like Monroe)
Are you ready to lose it all for you and me
What you say?

And you said
"Baby I follow you anywhere
Cross the ocean, over the hills
A thousand miles away"

Run, run, run
I know we're gonna be the ones
Who find our way back ho-o-ome again
So l-l-let's get lost my friend
Run, run, run
I know we're gonna be the ones
Who find our way back ho-o-ome again
So l-l-let's get lost my friend

And we stand here like fools
There's nothing for me and you
I know every road as if it was the back of my hand
My daddy said his goodbyes
(My daddy said his goodbyes)
And I think it's a sign
(And I think it's a sign)
He told me "Live your life as if it was too late"

And I said
"Baby I follow you anywhere
Cross the ocean, over the hills
A thousand miles away"

Run, run, run
I know we're gonna be the ones
Who find our way back ho-o-ome again
So l-l-let's get lost my friend
Run, run, run
I know we're gonna be the ones
Who find our way back ho-o-ome again
So l-l-let's get lost my friend

Keep on running
Keep on dreaming
Don't stop believing
Keep on running
Keep on dreaming
Don't stop believing

Run, run, run
I know we're gonna be the ones

Who find our way back home again
So let's just get lost
Run, run
I know we're gonna be the ones
Who find our way back ho-o-ome again
So l-l-let's get lost my friend
Run, run, run
I know we're gonna be the ones
Who find our way back ho-o-ome again
So l-l-let's get lost my friend

Keep on running
Keep on dreaming
Don't stop believing
Keep on running
Keep on dreaming
Don't stop believing
