

Starlight

ALMA

Bright clouds, they will pass through
There is magic in you
Shine like starlights in the sky
Bright clouds, they will pass through
There is magic in you
Shine like starlights in the sky

I, I close my eyes, I take a breath
Please say you'll never leave 'cause it's in your hands
Life is not a movie, but it's fantasy with you
Life is not a movie, but it's fantasy

Bright clouds, they will pass through
There is magic in you
Shine like starlights in the sky (Hey, yeah)
Bright clouds, they will pass through
There is magic in you
Shine like starlights in the sky

Your fingertips, I wanna touch 'em
Oh dear, how I fell in love so easily
Moments like this aren't forgettable
My, oh my, oh my, you're incredible
Life is not a movie, but it's fantasy with you
Life is not a movie, but it's fantasy

Oh yeah yeah
Yeah yeah
Starlight
Oh yeah yeah
Oh yeah yeah
Oh yeah
Starlight, starlight
Yeah
