

Supermind

Almah

One chance to choose and to decide
You got to get away
cause the sight will draw alive
One day, nothing to believe
You better hurry up
cause the clock is ticking now

Wait pain
in the middle of your life
When the feeling is about
When your life rise on your face
One chance to do and doing fine
Your mind is telling you
how to live your day

Learning how to survive
Watch your way and go
You said
"False or true??"
Live your life on pain
or eternal to supermind

You're still
waiting for a sign
Witch tell you what you do
You are lost inside

Move on
Live and take a ride
Follow into your wishes
And see the lies with your blues eyes

Learning how to survive
Watch your way and go
You said
"False or true??"
Live your life on pain
or eternal to supermind

Watch your way and go
You said
"False or true??"
Live your life on pain
or eternal to

Watch your way and go
You said
"False or true??"
Live your life on pain
or eternal to supermind
