I can't bear it to see you pass me by  
You are my nightmare  
A burning fever dream  
Faster  
I'll take you out  
Faster

You're my rival  
You are the same as I  
I go past every hit to take your place  
Go down  
Go down  
Start your engines

Predator on wheels  
Just for a chance to take your place  
I would risk it all  
Your win is mine

Taker of your fate  
I am your enemy, your hate  
I'm a predator on wheels  
Not slowing  
Down

Just the best is ever good enough  
The best is me, there is no place for you here  
Faster  
I'll take you out  
Faster

Your success is my worship and my bile  
It is the fuel I use to  
Take you down
