

## Red Flag

Almanac

From this day, you will follow her every will  
From her rule you cannot flee  
Fiercest lord you will ever see - she won't stand still  
From this day, you will call me your private god  
Prove yourself, don't disobey  
Fear me now until your last day - I'm your lord

Fire! - Nothing's gonna stop her

Red flags fly on the sea - give up surrender, 'cause you can't  
flee  
She's the force you won't see, but you'll feel  
In silence you will hear - one you now fear all across the sea  
She's the reason you'll fall - hear her call

In this life, you will question no word she speaks  
In her eyes you cannot be  
Stronger, sharper than she can be - you can't fool me  
We will see how you prove yourself under me  
Fail and you're food for the sea  
Come obey in this brave red fleet - your lord is Shih (She)
