Almanac

Let him die!
Take him down!

Dust and blood are me, the butcher and the slaughtered
I raise my sword to kill, my terror for your show

Let him die!

I'm the executed, slave and prosecuted
You taught me how to fight and kill

Take him down!

I'm made of blood and power, a skin full of scars
That's all you need to know about me now
No one sees me but they stare at me
What's so good for them to see me bleed

Break these chains, they are hungry for my life
I have no way to hide, never break my pride
You will never see inside

Prison taught me well, I'm here to prove your power
They want to cheer a beast, my wounds are their reward

Let him die!

I'm the executed, slave and prosecuted
You want me to fight and thrill

Take him down!

I'm made of blood and power, a skin full of scars
That's all you need to know about me now
No one sees me but they stare at me
What's so good for them to see me bleed

Break these chains, they are hungry for my life
I have no way to hide, never break my pride
You will never see inside
Are you satisfied?

Let him die!
Take him down!

Thought I'd never break, you chose my fate beneath you
Today I lose the fight, today I go to sleep

Let him die!

I'm the executed, slave and prosecuted
Now you see me beat and killed

Take him down!

I'm made of blood and power, a skin full of scars
That's all you need to know about me

My purpose was to kill, a show for your thrill
You don't need to know about me now
No one sees me but they stare at me
What's so good for them to see me bleed
No one hears me but they crave my scream
I'm the beast to howl for your regime

Break these chains, they are hungry for my life
I have no way to hide, never break my pride
You will never see inside
Are you satisfied?

Let him die!
Take him down!
