

Like a ghost that I feel  
Like a dream so unreal  
Like a ghost that I feel  
Like a dream so unreal

You look me in the eye  
Deeper into the night  
Darkness will be my guide

Close your eyes and shed no tear  
I'm the legacy of fear  
I'm the shadow in your eyes - in your eyes  
Unfaithful, a story untold  
In your eyes I conquered the world  
Come from behind - now it's my time

Now I've always dreamed  
To be the one  
Behold the flames, as they grow strong  
Where I belong

You look me in the eye  
Deeper into the night  
Darkness will be my guide  
Once in my life  
My rage burns inside you

You look me in the eye - I see you  
Deeper into the night - I hear you  
Darkness will be my guide - I fear you  
Once in my life - once in my life  
My rage burns inside you

Erase the holy sins I've made  
Please have mercy on my fate  
Can't pretend I'm still alive - still alive  
Unlawful, a secret divine  
No eyes to see, your tongue is mine  
Crowned as first Tsar - in peace and war

Falling, falling in  
A world between  
I found my strength from sorrow and pain  
Now I'm insane

You look me in the eye  
Deeper into the night  
Darkness will be my guide  
Once in my life  
My rage burns inside you

You look me in the eye - I see you  
Deeper into the night - I hear you  
Darkness will be my guide - I fear you  
Once in my life - once in my life  
My rage burns inside you

Like a ghost that I feel  
Like a dream so unreal  
Like a ghost that I feel  
Like a dream so unreal

This is the last resort to my own wretched memory  
Like a ghost that I feel  
Tortured the innocent in a room noone can see  
Like a dream so unreal  
This is all that I've denied and all I've put aside  
Like a ghost that I feel  
You better pray for a savior to liberate your kind

Now I've always dreamed  
To be the one  
Behold the flames, as they grow strong  
Where I belong

You look me in the eye  
Deeper into the night  
Darkness will be my guide  
Once in my life  
My rage burns inside you

You look me in the eye - I see you  
Deeper into the night - I hear you  
Darkness will be my guide - I fear you  
Once in my life - once in my life  
My rage burns inside you

You look me in the eye - I see you  
Deeper into the night - I hear you  
Darkness will be my guide - I fear you  
Once in my life - once in my life  
My rage burns inside you
