

never enough

almost monday

Don't know where I'm going
But I gotta go
Talked to myself for hours
And baby, you should know
Shouldn't be a secret
But I'll make it work
Everything I'm feeling
It's on the tip of my tongue

You're my favorite part of every day
No, I never really say it enough
I never really say it enough
No, I never really say it enough
Enough, enough
No, I never really say it enough
I never really say it enough

You're like a Sunday morning
Honey, you're so sweet
Wish I was always recording
'Cause I like the way you speak
Evidently
I enjoy you simply
Sun kissed, red lips

You're always on my mind
And no, I never really say it enough
I never really say it enough
No, I never really say it enough
Enough, enough
No, I never really say it enough
I never really say it enough

I'm worried are you taken?
Hope you don't freak out
Sometimes you gotta say it
And just let it all out

You're my favorite part of every day
No, I never really say it enough
I never really say it enough
No, I never really say it enough
Enough, enough
No, I never really say it enough
I never really say it enough
