

sunburn

almost monday

The days we spent were temporary
But you'll always be that sunburn on me
An ice cold shower can't help, baby
'Cause you'll always be that sunburn on me (Yeah, yeah, yeah)

California (Yeah, yeah)
Heat waves on ya (Yeah, yeah)
Think we knew that it would go there
Catching magic out of thin air
Warmer weather (Yeah, oh)
Nothing better
'Til we stumble into nightfall
And you end it with a phone call
Why'd I give you my everything
Just to watch us spiral down the drain?
What if time doesn't heal a damn thing?
And nothing, nothing's gonna wash it away

The days we spent were temporary
But you'll always be that sunburn on me
An ice cold shower can't help, baby
'Cause you'll always be that sunburn on me

Aloe vera over my skin (Ouch)
Took you to places that you never been (You never been there)
Why you gotta say goodbye? (Don't say, yeah)
Windows are down on the highway
But you never going my way (Uh)
Burn up in flames like the Fourth of July

The days we spent were temporary
But you'll always be that sunburn on me
An ice cold shower can't help, baby
'Cause you'll always be that sunburn on me (Yeah)

Sunburn on me
Ah, ah, got that sunburn on me
Ah, ah

Why'd I give you my everything
Just to watch us spiral down the drain?
What if doesn't heal a damn thing?
And nothing, nothing's gonna wash it away, yeah, yeah

The days we spent were temporary
But you'll always be that sunburn on me (Sunburn on me)
An ice cold shower can't help, baby
'Cause you're always gonna be that sunburn on me, yeah

Sunburn on me
Ah, ah, got that sunburn on me
Ah, ah, got that sunburn on me
Ah, ah, got that sunburn on me
Ah, ah
