

Dandelion Down

Aloe Blacc

Dandelion down
On the ground, the wind
Will blow you away
Caterpillar grow
Your wings
And fly away

Little baby, don't you cry
Momma's gonna dry your eyes and sing
Little baby, have no fear
Papa is here

Dandelion down
On the ground, the rain
Will wash you away
Caterpillar grow
One day your wings will
Help you fly away

Little baby, just you wait and see
One day you'll be grown up like me
Little baby, just you wait and see
One day you'll be just like...

Dandelion down
On the ground, the sun
Will shine in your face
Caterpillar grow
Your wings
You can leave, this place

Little baby, play all you wanna play
It's your world today
Little baby, one day you're gonna be a man

Dandelion down
Dandelion down
