

Fade Away

Aloe Blacc

Fade away, you fade away

Maybe I was dreaming the first time that I saw you
And maybe I'm still dreaming to think that my dreams come true

Cause I know that I looked all around
And you are still nowhere to be found
I guess I'm just no good at the games you play
When you fade away

Fade away, you fade away

I guess I'm just no good at the games you play
When you fade away
I guess I'm just no good at the games you play
When you fade away

I close my eyes and think about holding you every day
But every time I open my eyes you don't ever stay

Cause I looked and I looked all around
And you are still nowhere to be found
I guess I'm just no good at the games you play
When you fade away
When you fade away
When you fade away
When you fade away

Cause I know that I looked all around
And you are still nowhere to be found
I guess I'm just no good at the games you play
When you fade away
When you fade away

Cause I know that I looked all around
And you are still nowhere to be found
I guess I'm just no good at the games you play
When you fade away
