

# Hey Brother

Aloe Blacc

Hey there, brother, watch your little lady  
She's a little faster than you think  
Hey there, brother, watch your little lady  
She'll be sneaking 'round every time you blink

Now I don't know how she got my number  
But she been calling all through the summer  
Saying she really need to see the color  
Now don't that make you wonder

Hey there brother, hey there brother

Hey there brother, watch your little momma  
She's a little hand full, yes she is  
Hey there brother, watch your little momma  
She got herself a hand full, yes she did

Can't you see you're getting played you fool  
She's letting everybody take it as cool  
All up in the backyard shooting pool  
And I don't mean to sound cruel

But hey there brother, hey there brother

Hey there brother, look what she's doing to you  
Hey there brother, she's playing you for a fool  
Hey there brother, look what she's doing to you  
Hey there brother

Hey there brother, what's with your girlfriend  
She ain't being loyal, no she ain't  
Hey there brother, what's with your girlfriend  
You should hear the things that she's been saying

Well the word on the street is that it won't be long  
Before she packs up and moves on  
She's just using you like a comb  
Now don't you think it's wrong

Hey there brother, hey there brother  
Ooh, hey there brother  
Look what she's doing to you  
Hey there brother  
She's playing you for a fool  
Hey there brother
