

# Simple Man

Aloe Blacc

I'm just a simple man  
Living in a crazy world  
Trying to make some future plans  
And moving with an honest girl  
I don't need much just looking for a pretty lady  
With a sense of loyalty  
Someone who gonna look out for me

Said I'm a simple man  
I don't want nothing complicated  
Please don't misunderstand  
After all the time I waited  
All I need is a woman who knows what to do  
When it's time to ease my mind  
And how to give a broader space sometime, oh

A woman who's got her independence  
But she also want a man who's always with her hey  
An intelligent girl  
Oh the world better get up out of her way  
Oh the lady that's spontaneous  
Ready to do the craziest things just for fun  
No matter where and whatever it is  
She'd handle her biz and will do anything for me

For the simple man

You know I'm a simple man  
I keep it real real cool  
If I decide to take your hand  
Don't ever blame me for no fool  
'Cause I've been around the block  
Pretty sure I've seen everything there is to see  
I'm looking for a perfect one for me

I'm just a simple man and  
I'm looking for someone who could hold me down  
And when the teardrops is raining  
She'll be my sunshine through the clouds  
Hide my emotions in a room behind the door  
But she will always find the key  
A good girl to put a lock on me

A woman who got her independence  
But ain't got no problems depending on a man who's always with her hey  
A very intelligent kind of girl  
Always speaking her mind to world  
Better get up out of her way  
Oh the lady that's spontaneous  
Ready to do the craziest things just for fun  
No matter where and whatever it is  
She'd handle her biz and will do anything for me

For the simple man  
I'm a simple man, yeah  
I'm a simple man

And she will do anything for me
