

# Ticking Bomb

Aloe Blacc

[Chorus:]

The whole world's sitting on a ticking bomb  
The whole world's sitting on a ticking bomb  
So keep your calm and carry on  
The whole world's sitting on a ticking bomb

[Verse 1:]

The sun may never rise again  
The question ain't if but when  
The sea will boil and the sky will fall  
The sun may never rise again

The silent war has begun  
We're staring down a loaded gun  
No refuge found on solid ground  
This human race can't be won

[Chorus:]

The whole world's sitting on a ticking bomb  
The whole world's sitting on a ticking bomb  
So keep your calm and carry on  
The whole world's sitting on a ticking bomb

And it's about to explode

(The whole world) [x4]

[Verse 2:]

They're reaching in my pockets again  
The ice we're standing on is thin  
Making plans with greedy hands  
They're reaching in my pockets again

The future is a dying art  
Laying in a ditch in the dark  
I need you here but all I hear (is)  
The beating of a broken heart

[Pre-Chorus:]

Don't wait to say goodbye  
You're running out of time  
Whatever you believe  
It's easy to see

[Chorus:]

The whole world's sitting on a ticking bomb  
The whole world's sitting on a ticking bomb  
So keep your calm and carry on  
The whole world's sitting on a ticking bomb

And it's about to explode [x2]

(The whole world)

The whole world's sitting on a ticking bomb  
And it don't care what side you're on  
The whole world's sitting on a ticking bomb  
So keep your calm and carry on  
The whole world's sitting on a ticking bomb
